

Calloway — Discovery Call Intake Sheet

Operator reference for onboarding new real estate agent clients

Step 1: Agent Profile

FIELD	REQ?	WHAT TO ASK	DEFINITION
Full Name	Yes	"What name do you go by with clients?"	Display name the AI uses when signing messages. Should match their brand (e.g. "Sarah Mitchell" not "S. Mitchell").
Email	Yes	"Best email for system notifications?"	Receives error alerts, weekly reports, and account recovery. Not shared with clients.
Phone	Yes	"What's your cell number?"	Agent's personal number in +1XXXXXXXXXX format. Where the AI sends command-channel SMS and escalation alerts.
Brokerage	No	"Which brokerage are you with?"	Firm name (e.g. "Keller Williams Realty"). Used in the AI's context so it knows the agent's affiliation.
Market Area	No	"What's your primary area?"	Geographic market (e.g. "Philadelphia Metro"). Helps the AI give location-aware responses.
Timezone	No	"Which timezone are you in?"	Eastern / Central / Mountain / Pacific. Controls briefing times, after-hours rules, and scheduling. Default: Eastern.

Step 2: Communication Style

FIELD	REQ?	WHAT TO ASK	DEFINITION
Tone	No	"How would you describe your texting style — polished, warm, or laid back?"	Professional: "Good afternoon, I'd be happy to schedule that." Friendly: "Hey! Absolutely, let's get that set up." Casual: "Sure thing! When works best?"
Emoji Usage	No	"Do you use emojis when you text clients?"	Yes or No. If yes, AI mirrors light emoji usage. If no, messages stay text-only.
Greeting Style	No	"How do you usually open a text?"	AI's default opening pattern (e.g. "Hi Sarah!" or "Hey there"). Blank = match tone naturally.
Sign-off Style	No	"How do you usually sign off?"	Closing line the AI appends (e.g. "Best, Sarah" or "Talk soon!"). Blank = no sign-off.
Communication Notes	No	"Anything else about how you talk to clients?"	Free-text notes baked into the system prompt. Examples: "Never say 'no problem'", "Call properties 'homes' not 'houses'".

Pro tip: Ask them to forward 3–5 recent client text threads. Read them before filling this section — you'll nail the voice much faster.

Step 3: Scheduling & Availability

FIELD	REQ?	WHAT TO ASK	DEFINITION
Showing Duration	No	"How long are your typical showings?"	30 / 45 / 60 / 90 minutes. AI blocks this on the calendar per showing. Default: 60 min.

Buffer Time	No	"How much travel time between back-to-back showings?"	15 / 30 / 45 / 60 minutes. Prevents bookings too close together. Default: 30 min.
Earliest Showing	No	"What's the earliest you'd do a showing?"	Time of day (e.g. 9:00 AM). AI won't book before this.
Latest Showing	No	"Latest you'd start a showing?"	Time of day (e.g. 6:00 PM). AI won't book after this.
After-Hours Mode	No	"When a client texts at 11pm, what should happen?"	Acknowledge & Queue: AI says "Thanks! [Agent] will follow up in the morning." Handle Normally: AI responds 24/7. Silent: No reply; logged for morning briefing.
Briefing Time	No	"What time do you want your daily summary?"	Time in their timezone (e.g. 7:30 AM). AI sends overnight activity, upcoming showings, pending items. Default: 7:30 AM.

Step 4: Autonomy & Trust Level

FIELD	REQ?	WHAT TO ASK	DEFINITION
Operating Mode	No	"How much should the AI do on its own at first?"	Supervised Week 1 rec. : AI drafts, agent approves. Proactive: Routine auto, sensitive asks. Autonomous: Fully independent. Command Only: Agent triggers manually.
Escalate: Pricing	No	"Loop you in on pricing/negotiations?"	AI escalates pricing and offer questions. Default: Yes.
Escalate: Legal	No	"Same for legal or contract questions?"	AI flags legal, contract, disclosure topics. Default: Yes.
Escalate: Unhappy	No	"When a client seems frustrated?"	AI detects negative sentiment, escalates. Default: Yes.
Escalate: Personal	No	"Personal or emotional conversations?"	AI escalates sensitive personal topics. Default: Off.
Escalate: New Lead	No	"New unknown number texts in?"	AI notifies agent on first-ever message from unknown. Default: Off.
Notification Method	No	"How do you want alerts?"	SMS / Push (Firebase) / Both.
Notification Frequency	No	"Instant or batched?"	Immediate: Every event. Batched (default): Every 30 min. Briefing Only: Daily digest only.

Step 5: Active Listings

Repeat for each listing. Can be skipped and added later from the tenant detail page.

FIELD	REQ?	WHAT TO ASK	DEFINITION
Address	No	"Full address?"	Street, city, state, zip. AI uses for directions and property identification.
Price	No	"List price?"	Current asking price. Accepts \$450,000 or 450000.
Beds	No	"Bedrooms?"	Bedroom count.
Baths	No	"Bathrooms?"	Bathroom count (supports halves like 2.5).
Sqft	No	"Square footage?"	Living area square footage.
Status	No	"Active, pending, or coming soon?"	Active: On market. Pending: Under contract. Coming Soon: Not yet on MLS.
Showing Instructions	No	"Any special showing instructions?"	"Call 30 min before", "Occupied — knock first", "Use back entrance."
Lockbox Code	No	"Lockbox code?"	Shared with verified agents for confirmed showings. Stored securely.

Step 6: Active Clients

Repeat for each client. Can be skipped and bulk-imported later. During handoff, agent introduces AI to 2–3 of these first.

FIELD	REQ?	WHAT TO ASK	DEFINITION
Name	No	"Client's name?"	How the AI addresses them. Can be a couple: "Mike & Lisa Chen."
Phone	No	"Their cell number?"	+1XXXXXXXXXX format. How AI matches incoming texts to known clients.
Email	No	"Email?"	For email-based communications or records.
Role	No	"Buyer, seller, or both?"	Buyer / Seller / Both / Lead (not yet client) / Past Client . Determines which AI scenarios activate.
Stage	No	"Where are they in the process?"	New Lead → Active Search → Showings Scheduled → Offer Pending → Under Contract → Closed
Notes	No	"Anything the AI should know?"	Free text: "Pre-approved \$500K", "Looking in Fishtown", "Weekend showings only."

Step 7: Channel Setup

FIELD	REQ?	WHAT TO ASK	DEFINITION
Twilio Number	Yes	<i>Operator provisions — not a client question</i>	Dedicated number clients text to reach the AI. Must be provisioned in Twilio first. +1XXXXXXXXXX.
Google Review Link	No	"Do you have a Google Business review link?"	URL to Google review page (g.page/r/...). AI can share with satisfied clients post-closing.

System Prompt Override	No	Operator-only — advanced	Custom instructions replacing default AI prompt. Leave blank 99% of the time. Only for edge cases the style/autonomy settings don't cover.
------------------------	----	--------------------------	--

Summary: 34 total fields across 7 steps. Only 4 required (name, email, phone, Twilio number). Everything else has sensible defaults. Average discovery call: 30–45 minutes.
